

GEARGRID®

ATHLETIC

Why Choose GearGrid?

Over 100 Years of Expertise:

GearGrid has been manufacturing durable storage solutions since 1921.

American-Made Products:

All GearGrid products are designed, manufactured, and tested in Forest Lake, MN.

Uncompromising Quality:

We manufacture our products with an unwavering commitment to quality, utilizing only the most robust and time-tested materials.

Comprehensive Customer Service:

GearGrid is dedicated to providing a superior customer experience at every stage, from initial inquiry to long-term support, fostering lasting partnerships.

Need help with room layout ideas?

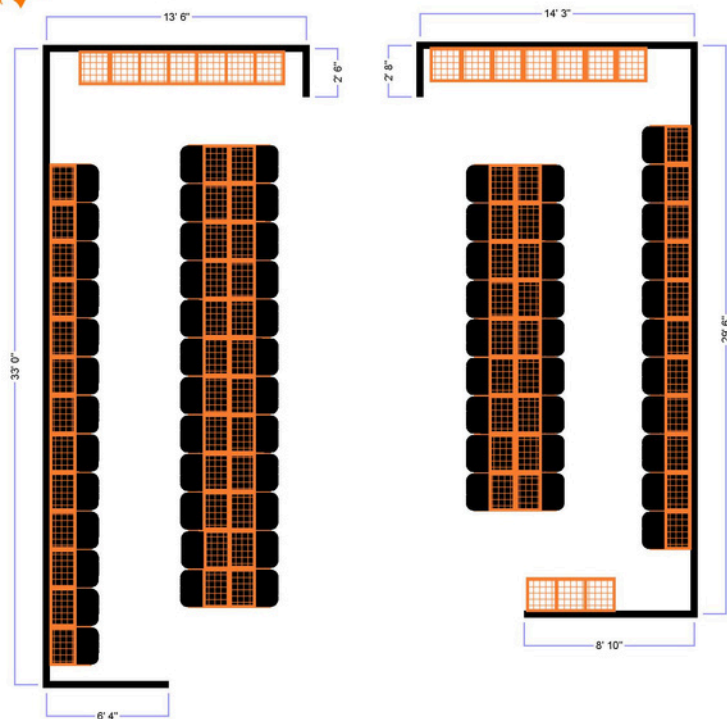

We can help!

At GearGrid, we understand that every athletic facility is unique, which is why we offer custom room layout assistance. Our team collaborates with you throughout the entire design process, from initial planning to final layout drawings. We take pride in helping you customize every detail to create a setup that perfectly aligns with your vision.

GridIron Lockers are:

1.

Durable: Made with U.S. steel and an industry leading powder coat finish, GridIron Lockers are known for their extreme durability. Trusted by high schools, universities, the U.S. Military, fire departments, and police departments nationwide.

2.

Breathable: Constructed with a 2" x 2" square grid pattern to allow for maximum breathability, which allows items to dry faster and fight bacterial growth. GridIron Lockers are more breathable and resilient than traditional wood, laminate, or sheet metal options.

3.

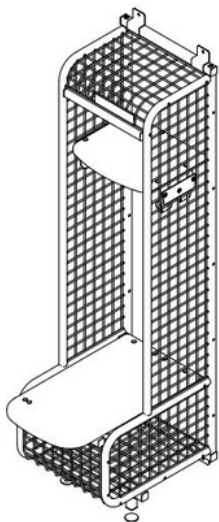

Customizable: Whether you want a fully open and breathable design, a sleek wood locker, or a durable scratch- and water-resistant option, our lockers can be designed to meet any facility aesthetic. Make your lockers unique with any of our 15 standard powder coat colors, 5 standard laminate options, multiple logo options, and more!

4.

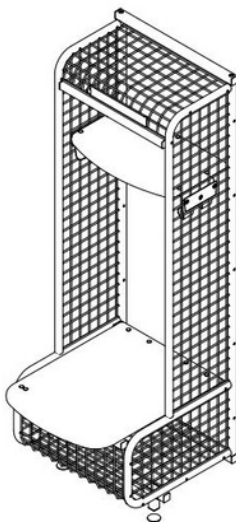

Cost Effective: Given the longevity of our lockers and price comparison to most wood lockers, we provide a cost effective solution for schools. Our integrated seat, which allows the athlete to sit comfortably away from their gear, also eliminates the need for benches.

Equipment Storage Systems.

Beyond storage lockers, GearGrid offers a comprehensive selection of versatile equipment storage systems designed to meet the unique needs of athletic facilities.

Key Benefits:

Breathability: Our open grid pattern allows equipment to properly dry, while maintaining visibility into each unit.

Security: Optional security options are available for enhanced protection of valuable equipment.

Mobility: Our mobile storage systems offer unlimited placement flexibility and convenient transportation.

Durability: GearGrid storage systems are manufactured at our facility in Forest Lake, MN with premium U.S. steel.

Modularity: Our storage systems allow you to configure each unit to perfectly meet your needs.

Value: Compared with other brands, GearGrid is more cost-effective without compromising quality or functionality.

Outfit Your Facility with GearGrid.

Our storage systems seamlessly integrate into a variety of rooms within athletic facilities, offering flexible and adaptable solutions to meet a wide range of storage needs.

Utilize GearGrid in:

- ▶ JV Locker Rooms
- ▶ Varsity Locker Rooms
- ▶ Weight Rooms
- ▶ Laundry Rooms
- ▶ Equipment Storage Rooms
- ▶ Officials Locker Rooms
