ABOUT US

Your Safety, Secured.

In the world of public safety, there's no room for uncertainty. Every second counts and every piece of equipment must perform flawlessly.

At GearGrid, we understand the critical role that storage solutions play in the preparedness and effectiveness of our everyday heroes. That's why we've made it our mission to ensure that your gear is always ready, organized, and easily accessible when the call to action comes.

Precision Crafted & American Proud

GearGrid takes great pride in manufacturing durable storage solutions for our first responders. We wholeheartedly believe in the power of American manufacturing, which is why every one of our products is designed, built, and tested at our production facility in Forest Lake, Minnesota. Building strong relationships with our customers is the cornerstone of our success, so we'll be by your side offering unwavering support, whether it's assisting today or helping with future storage needs.

GEARGRID WWW.GEARGRID.COM

GEARGRID TIMELINE

>THE FIRST 100 YEARS

With a legacy dating back to 1921, GearGrid — formerly known as Wire Specialties and later Mid-Minnesota Wire — began its journey by specializing in custom retail displays and wire forms.

And a sub- concer part

In 1997, GearGrid co-owner and volunteer firefighter, Mike Boyer, designed a durable and well-ventilated locker system for the proper storage of his department's turnout gear. Recognizing a wider industry need for improved firefighting gear storage, GearGrid launched the product in 1998.

Over the next decade, GearGrid became the market leader in firefighting equipment storage through innovation and customer focus. In 2002, the product line was expanded to address broader storage challenges, including hose and cylinder systems, workstations, and general equipment storage.

In 2008, GearGrid launched its products internationally, serving first responders worldwide. Eight years later, the company expanded into new markets, including Athletics, Public Works, and Law Enforcement, showcasing its products' adaptability across industries.

24″	32″	72″	Any Length
30″	24″	72″	Any Length
36″	24″	72″	Any Length

LOCKER WIDTH is measured from the center of one side tube to the center of the next side tube of one locker opening.

LOCKER HEIGHT is based on useable locker space.

GEARGRID WWW.GEARGRID.COM

Furring System

The ideal solution for mounting to walls with exposed conduit, pipes, or other obstructions. Available in 2" to 8" vertical wall and horizontal floor offsets.

ADDITIONAL DETAILS:

FRAMING

Heavy-duty 1¼" steel tubing

ADJUSTABILITY

Wire shelves adjustable in 3" vertical increments

SIDE & BACK GRIDS

Durable ¼" wire, 3" x 3" square grid pattern

SECURE DOORS

Optional doors available, heavy-duty 1¼" steel tube with 3" x 3" wire grid infill

MOUNTING BRACKETS

Constructed of 11-gauge durable steel

COLORS & FINISH

Super Durable TGIC powder coat, available in 7 standard colors, optional anti-corrosive primer available

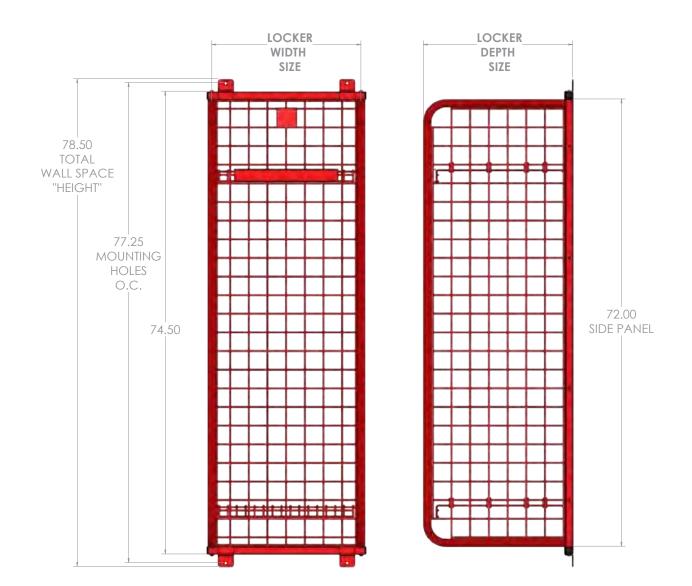

SHELVES & HOOKS

2 shelves made of durable ¼" wire, and 3 apparel hooks per locker

SHIPPING

Ships knocked down for ease of handling and reduced shipping costs

STANDARD WALL MOUNT LOCKERS

Standard Mobile Lockers

Whether you're short on wall space or simply prefer the portability, these mobile storage lockers let you use any open space for fast, easy access to turnout gear and superior ease of cleaning. Each bank of lockers is mounted to a heavy-duty, welded frame and includes four 250 lb casters.

INCLUDED ACCESSORIES:

Back Panel

Most Standard Mobile Lockers include the following:

- Top Shelf
- 3 Apparel Hooks 4 Casters
- Bottom Shelf

 Nameplate Holder (custom printed nameplates not included)

SINGLE SIDED

- LOCKING CASTERS:
- With 250 lb capacity, these swivel casters provide 360° movement for placement flexibility to suit any floorplan and allow for quick repositioning and easy cleaning.
- > The high-tension locking brakes allow for secure placement.

Tubular Frame Wall

The Tubular Frame Wall provides an additional and alternative mounting option for our Standard and Two-Tier Wall Mount Lockers. The structure uses heavy-duty mounting plates to securely attach the frame to the floor in any desired location, while maintaining the benefits of typical wall mount installation.

*Note: Wall Mount Lockers are sold separately from Tubular Frame Wall and are not included.

CONSTRUCTION:

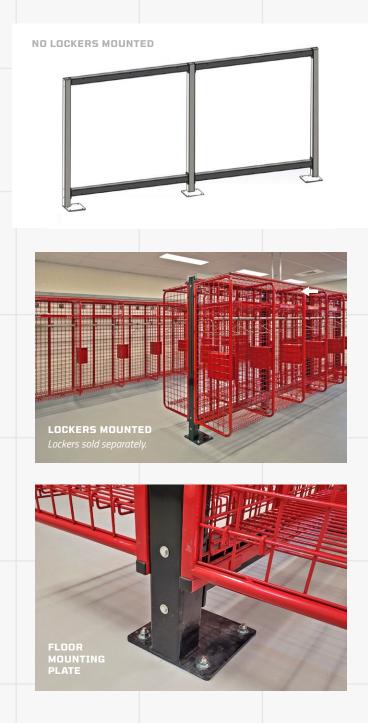

Each Tubular Frame Wall is engineered to your desired layout, locker size, and quantity. Each wall includes the following:

- Vertical Posts: 4" x 4", 0.250" wall thickness steel tube
- Horizontal Frames: 4" x 4", 0.1875" wall thickness steel tube, frames mechanically fasten to vertical posts with supplied or identified hardware
 - ***Note:** If Power Bars (electric raceways) are included, top horizontal frame will be 6" H x 4" W with 0.1875" wall thickness steel tube
- Floor Mounting Plates: steel plates welded to vertical posts, ¹³/₁₆" mounting holes as needed

*Note: Mounting plate hole configurations subject to locker layout

COLORS & FINISH: Super Durable TGIC power coat, available in 7 standard colors, optional anti-corrosive primer available

SHIPPING: Ships knocked down for ease of handling and reduced shipping costs

Accessories

View our extensive collection of innovative accessories specifically designed to complement and enhance the functionality of your GearGrid storage systems.

Secure Box

Power Bar

Adds an electric receptacle opening to each locker. Available for 18", 20", 24", 30", and 36" widths. Electrical service, receptacle outlet, and wiring supplied by customer's licensed electrician.

Securely affixes to GearGrid's Standard Locker Shelves to remain firmly in place. Not recommended for lockers with Secure Doors or Top-Side Storage Shelves.

BackBoard Rack

Ensures your valuable items are safely secured while away. Small: 6" W x 6" H x 11" D Large: 6" W x 12" H x 11" D Allows for additional gear storage on top of locker systems. Available in 18", 20", 24" & 30" widths and 20" & 24" depths. Cannot be used on lockers with Secure Doors.

Top-Side

Storage Shelf

Total Cover

Protect gear from UV rays, dust, or debris to help prolong its lifespan. Locker shields are only available for GearGrid's Standard Mobile Lockers.

Add complete locking capabilities to your existing GearGrid Standard Locker Systems. Available in 18", 20" & 24" widths and only 20" depth.

A set of 2 racks (top & bottom) that store up to 5 backboards and comes with Velcro straps. Cannot be used with Secure Doors or Top-Side Storage Shelves. Fits within 20" & 24" locker widths. Size: 18" W x 18" D x 6" H

Can be used with the BackBoard Rack as a convenient storage option. Compatible with a variety of GearGrid systems, utilize just the basket for unlimited storage possibilities.

Maximizes storage by providing additional space underneath locker systems. Can only be used on GearGrid's Standard Wall Mount Lockers with 18", 20", 24" & 30" widths.

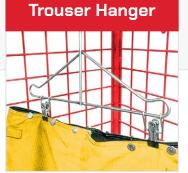

Adds seating for dressing and folds into the locker for compact storage. Has 250 lb capacity and cannot be used with Secure Doors or Mobile & Freestanding Lockers.
