# THE GEARGRID DIFFERENCE

---

- › About Us
- › Facility-Wide Storage Solutions
- › GridIron Team Locker Benefits

# Why Choose GearGrid?

## › Over 100 Years of Expertise

GearGrid has been manufacturing durable storage solutions since 1921.

## › American-Made Products

All GearGrid products are designed, manufactured, and tested in Forest Lake, MN.

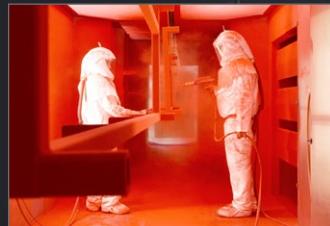

## › Uncompromising Quality

Made from robust, time-tested materials, GearGrid products are trusted in rugged public safety environments—and built to perform just as reliably in athletic facilities.

**Breathability** and **Customizability** are two of the major cornerstones of our athletic line.

## › Comprehensive Customer Service

GearGrid is dedicated to providing a superior customer experience at every stage, from initial inquiry to long-term support, fostering lasting partnerships.

## GRIDIRON LOCKERS: **One locker system. Endlessly customizable.**

---

### ① Durable

Made from U.S. steel and protected with an industry-leading powder coat finish, our GridIron Lockers are built for extreme durability. They are trusted by high schools, universities, the U.S. Military, and fire and police departments nationwide.

### ② Breathable

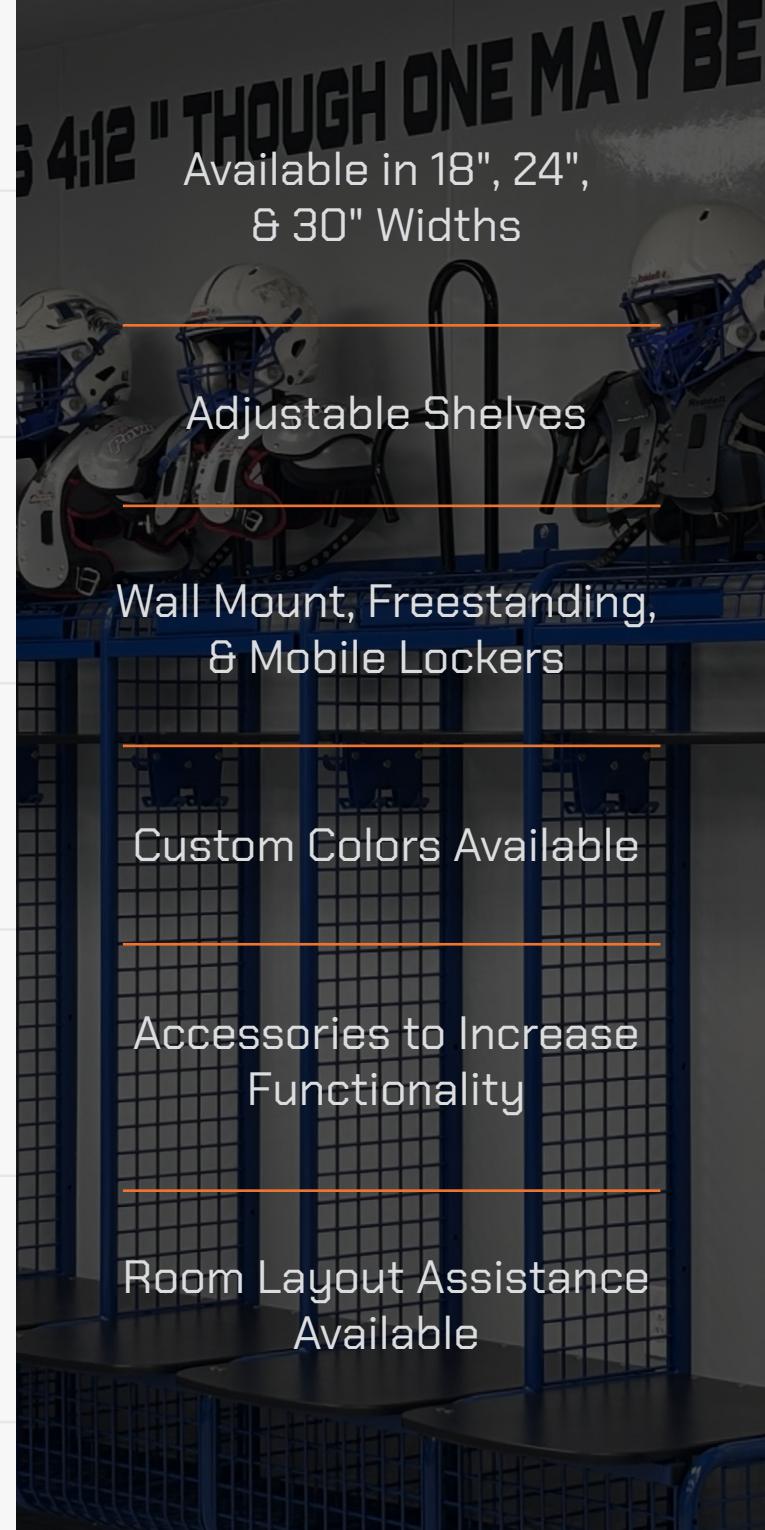

Constructed with a 2" x 2" square grid pattern for maximum airflow, our GridIron Lockers allow gear to dry faster and help reduce bacterial growth. They offer greater breathability and resilience than traditional wood, laminate, or sheet metal lockers.

### ③ Customizable

Whether you prefer a fully open, breathable design, a sleek wood aesthetic, or a durable scratch- and water-resistant option, our GridIron Lockers can be tailored to match your facility's look. Choose from 15 standard powder coat colors, 5 laminate options, multiple logo styles, and more to create a locker system that's uniquely yours.

### ④ Cost Effective

With long-lasting construction and a cost advantage over many wood locker designs, our GridIron Lockers offer exceptional value for athletic programs. The integrated seat allows athletes to sit comfortably away from their gear – eliminating the need for separate benches and further reducing overall facility costs.

Depth – 20"

Heights – 72" & 84"

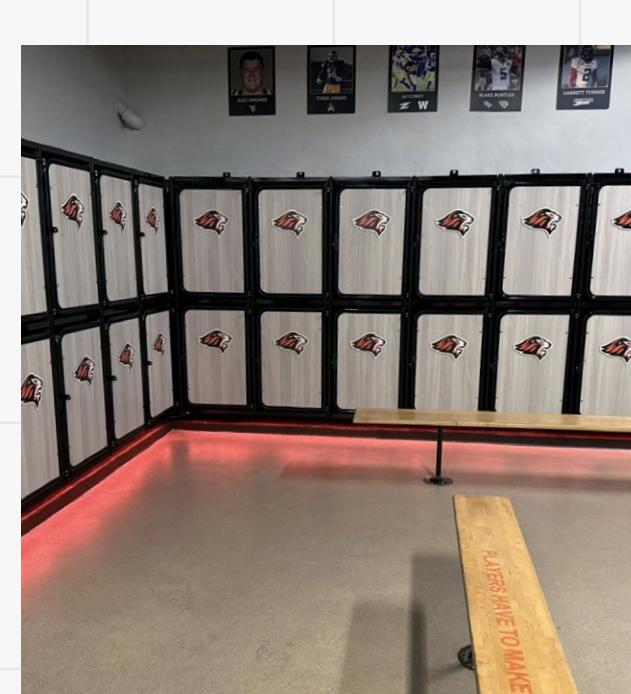

Available locker sizes are determined by mounting style

**Mounting Types:** Wall Mount, Mobile, Freestanding

Mobile lockers come standard with 250 lb. capacity locking casters and Freestanding lockers come standard with adjustable floor supports

**Door Types:** Black HDPE, Wire Grille, and Laminate doors

**Grid Size:** 2" x 2"

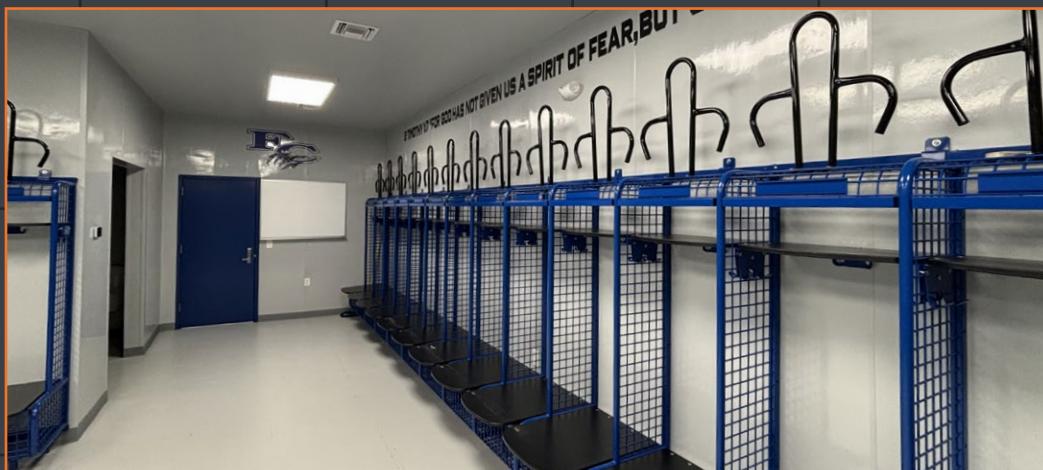

# CASE STUDY: French Camp Academy

## Turning a Dream Fieldhouse Into Reality

Founded in 1885, French Camp Academy is a Christian boarding school in Mississippi with a rich 130-year history.

Its athletic tradition is equally impressive, with more than 20 state championships in cross country and track, plus a football state title.

Despite the winning legacy, the school had never had a dedicated fieldhouse—until recently.

## A Long-Awaited Dream

For Athletic Director Rusty McKnight—a 1984 graduate of French Camp and longtime coach, principal, and teacher—the project was deeply personal. “We have dreamed of this for years,” he shared. “We never imagined it would be as nice as it is.”

## Bringing the Vision to Life

When it came to athletic lockers, French Camp chose GearGrid’s GridIron Team Lockers for their durability, ventilation, and standout design. “GearGrid immediately grabbed our attention with its unique look,” said McKnight. “They’re incredibly strong, no worries of denting or flexing, and the powder coat paint is there to stay.”

## An Athletic Facility That Inspires

For French Camp Academy, the new athletic fieldhouse is more than just a building—it stands as a symbol of growth, tradition, and pride—reflecting the school’s values of discipline, teamwork, and excellence, while also giving future athletes a facility that inspires them to keep striving for success.

And as McKnight puts it, “If French Camp ever needs lockers again, GearGrid will be our first call.”

French Camp’s fieldhouse proves that the right storage solution can transform not just a space, but an entire program. GearGrid is proud to be part of this legacy and ready to help other schools turn their facility dreams into reality.

# Key Benefits of Equipment Storage Systems

Beyond storage lockers, GearGrid offers a comprehensive selection of versatile equipment storage systems designed to meet the unique needs of athletic facilities. Explore the key benefits that make our solutions a trusted choice for programs across the country.

"It's important to be able to rely on a company to help you and guide you, and GearGrid did just that for us."

› **Tom Brown**

GUSTAVUS ADOLPHUS COLLEGE, MN

## 1 Breathability

Our open grid design promotes airflow for faster drying while maintaining full visibility into each unit.

## 2 Security

Optional locking and security features provide added protection for valuable equipment.

## 3 Mobility

Our mobile systems deliver unmatched placement flexibility and make transporting equipment effortless.

## 4 Durability

Built in Forest Lake, MN from premium U.S. steel, GearGrid systems are engineered for long-lasting performance.

## 5 Modularity

Interchangeable components allow you to configure each unit to match your exact storage needs.

## 6 Value

Compared with other brands, GearGrid is more cost-effective without compromising quality or functionality.

## ADJUSTABLE

## FIXED

# Hook Accessories

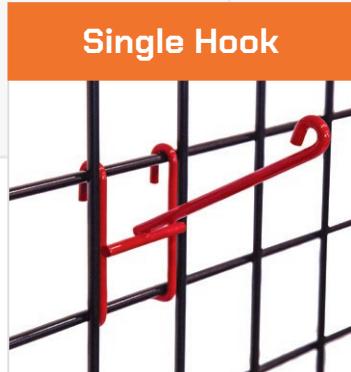

Compatible with GearGrid equipment storage systems featuring a 3" x 3" grid, these hook accessories let you mix, match, and customize your setup to fit exact storage needs.

## Apparel Hook

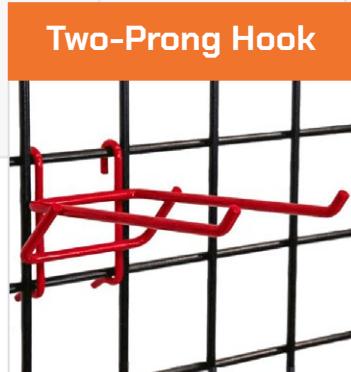

A durable, multi-purpose hook designed to keep uniforms, helmets, bags, and other gear organized.

## Single Hook

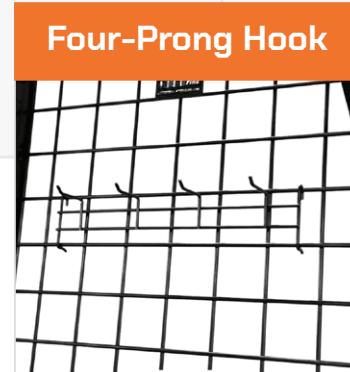

A simple, versatile hook for quick access to frequently used tools and equipment.

## Two-Prong Hook

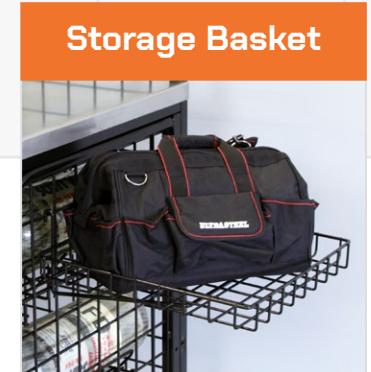

Dual prongs provide stable hanging space for wider or larger items.

## Four-Prong Hook

Offers expanded hanging capacity for multiple items, making it ideal for grouping similar equipment.

## Storage Basket

Useful for items like small bins, paper towels, and trash can liners for quick, convenient access.

## GearHook

Sizes: 8" & 16"

A versatile hook for shoulder pads, bags, weightlifting belts, yoga mats, and more.

## GearHolder

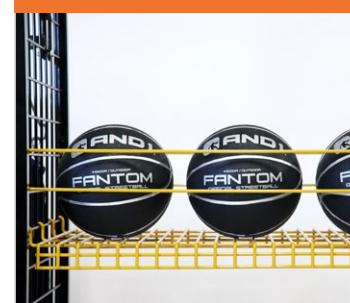

Designed for versatility, this hook can store a wide range of gear for any sport.

## GearRail

Straight hook ideal for storing larger items such as hurdles, hula hoops, lacrosse sticks, and other specialty equipment.

## GearRetainer

Creates secure compartments on the Suffolk, Miami, and GearCart for bulk ball and loose gear storage.

## Ski Hook

Built for secure, space-efficient ski storage – each hook can hold up to four sets, depending on ski width.
