GridIron Lockers

THE MOST VERSATILE ATHLETIC LOCKERS AVAILABLE

1

Durable: Made with U.S. steel and an industry leading powder coat finish, GridIron Lockers are known for their extreme durability. Trusted by high schools, universities, the U.S. Military, fire departments, and police departments nationwide.

2

Breathable: Constructed with a 2" x 2" square grid pattern square grid to allow for maximum breathability, which allows items to dry faster and fight bacterial growth. The above-floor mounting makes cleaning easier than ever.

3

Design: GridIron Lockers are more breathable than sheet metal or wood lockers, however a wood look can be created with our laminate options. Make your lockers unique with any of our 15 standard powder coat colors, 5 standard laminate options, multiple logo options, and more!

4

Cost Effective: Given the longevity of our lockers and price comparison to most wood lockers, we provide a cost effective solution for schools. Our integrated seat, which allows the athlete to sit comfortably away from their gear, also eliminates the need for benches.

18" , 24" , & 30" Widths | Adjustable Shelves | Wall Mount, Island, & Mobile
Custom Colors Available | Room Layout Assistance
